10th of September 2015, Berlin, Germany

Marine Biotechnology ERA-NET (ERA-MBT) is funded under the European Commission's Seventh Framework Programme. Grant Agreement Number 604814
December 2013 - November 2017

Projects in the BioEconomy

Common Goals

- Build scientific community,
- Higher R&D and innovation level at enterprises,
- Make sure that enterprises and academics collaborate,
- Organize tech/knowledge transfer,
- Find solutions for societal challenges
- Avoid fragmentation
- Look for Synergy
- Outreach & Cooperation

Our Future ?

Eu vs World

Cofunds:

less place for eranet-lookalikes: more collaboration, more alignment ...

In general:
Less time ... less money

The goal of the workshop ...

Goal of the workshop

... at least ONE concrete action

Results of the workshop

... Long list of potential common activities

4 'big' themes selected

- Capacity building - Tech Transfer - Knowledge Transfer
- Consultation of Stakeholders - Strategic input
- Scientific conferences - Showcases
- Harmonization - joint time lines

Results of the workshop

Capacity building – Tech Transfer – Knowledge Transfer

Main purpose: bring academics
& industry together

set up a task force (RCN,
Era-mbt)

Dec 2015 - Jan 2016

In cooperation with
Cofund Biotech ?

Short term: identify gaps
in training (Embric)

Long term: Plan a data hack

Results of the workshop

Consultation of Stakeholders – Strategic input

Basic Idea: listen to 'market' and 'how' to organize this

Presence:

10th of Nov: Brussels

24-26th of Nov: Berlin

Organize common stakeholder event:

12-13th of April: Utrecht

Goal:

check individual roadmaps +
way to integrated bio
refinery roadmap

Results of the workshop

Scientific conferences – Showcases

Basic Idea: common status seminars

Task to be planned in future collaboration via Cofund(s)

Opportunity = final conference Era-mbt (end 2017)

session:

- MBT funded projects
- Marine linked projects in other Eranets
- Marine linked projects on national/regional level

Results of the workshop

Harmonization – Joint time lines

Basic Idea: Harmonization is necessary for our 'customers'
To .. Harmonize events and calls (topics) in future (jointly organized ...)

Create tool(s): info on calls and events planned in eranets 'before' finalized ...
Key persons in Eranets needed to provide input

Next year Platform event: use this information to optimize future planning of events and start of joint calls in Cofund(s)
